

With adherence to Covid Compliance Practices

# Intermediate Wound Care

## Why

Nurse the “WHOLE” not just the “HOLE”.

Proper assessment is essential to a progressively healing wound.

Knowledge of wound healing, complications and essential techniques makes wound healing less daunting and more rewarding.

## What

Basic Anatomy and Physiology of the Skin  
Refresher

Patient Assessment

Wound Assessment

Lower Limb Ulcers

Diabetic Foot Ulcers

Cellulitis

Fungating Wounds

Wound Infections

## How

2 Day Workshop for EN's & RN's.

Small, focused groups to enable individual attention.

Flexibility - workshops can be held at the client's premises, for convenience and continuity.

Skilled and proficient mentorship.

Theory and Practical assessments during the workshop where a passmark of 70% is required.

## Workshop

Cost: R2300 - 2 Day Workshop (RN's, EN's)
